Tilt in the House Between Morse and Fithian.

QUESTION ONE OF VERACITY

Federal Elections Repeal Bill Decussed by Gon, Black, Mr. Johnson and Gen. Breckbridge.

WASHINGTON, Sept. 28 .- At the open ing of the house today. Mr. Morse saked pererission to make a statement and it being granted he said he regretted there was one mamber who objected to his request to have certain newspaper clipplugs published in the record. That maker was the gentlemen from Illinois. Mr. Fithian.

Mr. Fithiah said that he had objected to having the matter published because he had been informed that it contained a personal attack on the commissioner of pensions. On the day that he had ob-jected, the gentleman asked him whether he was asking for any public

buildings.
Mr. Morse—The gentleman's statement is entirely false.

Mr. Fithius-Did you not ask me whether I wanted any public buildings

in my district?
Mr. Moree-No, that is not true and you know it is not true.

Mr. Fithian—If the gentleman means to infineste that I am felling a falsehood.

he is willfully lying himself.

Mr. Hopkins thought that this kind of talk should stop and he demanded the regular order.

Mr. Flynn called up the resolution calling on the war department for informution as to the instructions given to United States troops on the Cherokee

In the morning hour Mr. McRas called up and the house passed a bill relating to the disqualifications of registers and receivers of land offices.

The federal election bill was then taken up and the house was addressed by tieneral Black. He said the laws had been designed to intensify the race leave. They appealed to force and not to reason. They were an obstruction to program and should be repealed. In 1816 it was supposed that Illinois was a sure republican state and but \$1,105 was expended for deputy marshais. It was found that Illinois was a doubtful state and in the fall of 1892 the amount ex-pended was 882,000. He charged that in the election the deputy marshels in Chicago had been recruited from the ranks of burns and burnmers to the extent of Jana. To think—continued Mr. Black, with contempt in his voice—that in the city of Chicago it was necessary to have a buttalion of 2,600 bummers to keep order on election day. What had been the result of this action? It was that Chicago had gives 35,000 democratic majority. That was the proper response of a free constituency to a corrupt assault upon the liberty of the cit-

Mr. Johnson replied to General Black. He said the pending measure was the capsione to the lofty tower of democratic infamy (appliance). A great wrong was being here inflicted; a blow was being aimed at the purity of the ballot. The amert themselves and people would would take hold with irresistible force of the democrat party and hurl it from power. (Applause.)
Mr. Breckenridge spoke in favor of the

bill, and at the conclusion the house, at 5 o'clock, anjourned.

Washington, Sept. 28.—In the senate today Mr. Host denied the story that Ernest Sayd, a French writer, had had much to do with the passage of the act of 1873 by the use of a corruption fund of Sociatio contributed by foreign capitalists. The only speech on the silver repeal bill was by Mr. Peffer. His remedy for the financial troubles is the adoption of an amendment offered by him to restore the free comage act of 1877. With that amendment, he said, the appeal bill could be passed in twent five minutes.

Wage Scale Proposed by the Bond Will be Accepted to be Effective January 1.

CISCINSATI, Sept. 28.-A messenger boy late tonight walked up to the handsome summer cottage of President In-galls of the Big Four railroad, in the mountains of Virginia, with a little yellow envelope that concealed most welcome intelligence. It contained a meacant sentence: "The men have voted to accept the proposition and they will not

This succinctly gives the culmination of the trouble between the trainmen and of the trouble between the trainmen and officers of the Big Four. This afternoon the work of canvassing the vote was concluded, and while the result has not been officially announced, a slip of paper found in the room in which the vote was counted shows that the was counted shows that the firemen and brakemen expressed a disposition to combat the order reducing salaries even to a point of striking. But 10 per cent favored the acceptance of the executive circular. Among the conductors and engineers the result was vastly different. They voted by a small majority against striking. The passenger men, conductors and engineers alike are less aggrieved than the freight employes. This is due to the disparity of freight and passenger traffic. Incident to the world's fair the passenger business has been very large and the depressing in the interests of the country have curtailed the freight traffic to a marked degree. On this account the passenger degree. On this account the passenger men have been enjoying good pay while the freight men have experienced the greatest difficulty to make good money, as all are paid on the mileage basis.

Chiefs Notified. The chiefs have been notified of the action of the men and they will now go west to Denver and adjust the differences existing on the Denver & Rio Grande system. The ultimatum which President logalls made the last time that he met the brotherhood chiefs is what the men now now. what the men now accept. It can by no means be construed into concession. He simply pledges on the 1st of January to take up the present wage scale and if he finds that it needs equalizing he will give it attention and make such concessions to the men. equalizing he will give it attention and make such concessions to the men as the interests of the country at that time may justify. He is outspoken however, in saying that the scale as effective before he made the reduction was very excessive and he will never consent to restore it. The past few days the public belief has been that trouble would be averted and the largely increased business of the Big Four has not been the least affected by strike runners.

Will Be No Tie Up.

TERRE HAUTE, Ind., Sent. Master Sargent of the Brotherhood of Locomotive Firemen is in receipt of a telegram from the firemen's committee at Concinnati stating that the vote of the Big Four employes was adverse to a strike and that the trouble that has been impending is now settled.
